COSHOCTON FIREMEN ON STRIKE TUESDAY FOR WAGE INCREASE

HELPING IN FIGHT ON MEAT PACKERS

District Attorney Charles F. Clyne, photographed last week in Washington.

District Attorney Charles F. Clyne of Chicago has been busy for several months past hunting up evidence to be used in the prosecution of the big meat packers. Clyne says the case against the packers will be presented to a grand jury in Chicago before the end of this month.

VOLUNTEERS ARE WANTED FOR THE FIRE DEPARTMENT

A good man for chief of the fire department is wanted with prospects of a permanent position at \$125 per month; also two captains at \$115; and three firemen at \$110 each.

The safety department is looking for men to fill the vacancies created by the seven men who walked out Tuesday morning. Temporary appointments can be made for 30 days and in the meantime a civil service examination will be held. At the start the present salaries ranging from \$75 to \$95 would be paid.

In case a fire break out, every citizen who has the welfare of the city at heart is urged to be in readiness to lend assistance in fighting the fire.

COSHOCTON W.'S ELECT HEADS

Election of officers will be held by the Coshocton Woman's Christian Temperance Union Wednesday afternoon at 2:30.

The meeting will be held at the home of Mrs. R. A. Parrish, 358 Hamilton-av. Following the election the annual report will be read and all business matter extending over the past year recorded.

PAYS FINE FOR THEFT OF WHIP

Theft of a buggy whip valued at \$1.35 cost Jacob Statz, 17ndal \$4.65 in Mayor Richardson's court Tuesday.

All the members of the city fire department, including the chief, two captains and four firemen, walked out on a strike at 7 o'clock Tuesday morning, following the refusal of council Monday night to consider the request for an increase in wages until the next meeting of council in two weeks, assurance being given the men that an increase would be granted at that time.

The finance committee of council, composed of Norris, Heinke and Tish, was ready to report in favor of increasing the chief's salary from \$95 to \$125, the captains from \$90 to \$115 and the men from \$85 to \$110 but President Magruder ruled that the request should not be considered on the eve of the election when some of the members of council are candidates for office.

An effort was started Tuesday morning to secure men to take the places of the strikers. The safety director is empowered to appoint men for 30 days, to allow time for the civil service commission to hold an examination and furnish a list of eligibles for appointment permanently. As there is every assurance that the city council will grant a substantial increase to the members of the department, the positions take on new attractiveness and it is probable that enough men will be secured in a short time to fill the vacancies.

The firemen expressed themselves Tuesday morning as determined not to go back to work until council grants the increase. They argue that the council has had about six weeks to consider the matter. Members of council were indignant Tuesday at the firemen in walking out in the face of a definite promise that the salaries would be increased in two weeks. The councilmen maintained that now is the time to get an entire new fire department and did not seem favorable to having any of the men who walked out taken back or granted an increase in salary.

The civil service commission, composed of Lester Gorseline, Jesse Halter and Carl Rodgers, has called a civil service examination at the earliest possible date, for Wednesday evening of next week. Meantime members of the police force and volunteers will keep an eye on the fire.

GIRL IS INJURED WHEN TWO CARS COLLIDE SUNDAY

Hazel Huston, 17, the daughter of Mr. and Mrs. Franklin G. Huston, 327 Locust st was badly bruised and cut when she was thrown from an automobile in a collision of cars driven by Francis Lowery, Fresno, and Glen Coleman, Canal Lewisville near that place Monday morning.

Miss Huston and her parents were all thrown from the car by the force of the collision. Miss Huston received a bad cut over the right eye and several stitches were required to close the wound. Her parents and the drivers of both cars escaped with slight bruises.

Following the accident Miss Huston was brot to her home in this city where she was attended by Dr. Edmund Cone. An examination of her injuries was made but no broken bones were found.

Both cars were damaged to the extent of about \$250.

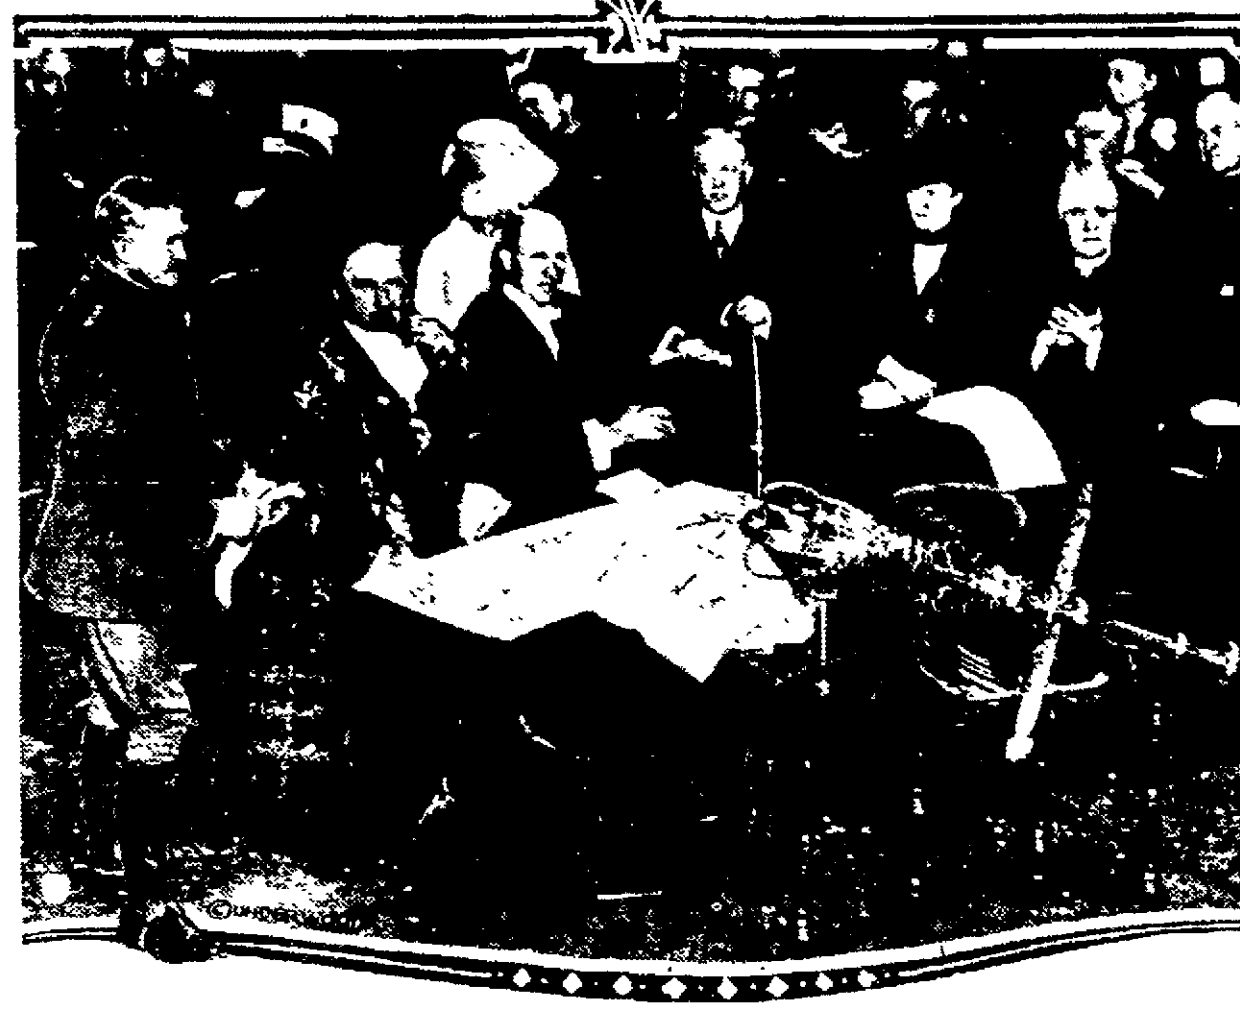

The accident occurred just this side of Canal Lewisville. Mr. Coleman and party were enroute from Akron to Coshocton. Mr. Lowery, the driver of the other car was on his way to Canal Lewisville.

Thru some cause or other Mr. Lowery failed to see the approach of the Coleman car and the machines crashed together before either driver could avoid the accident. Both driving at moderate rate of speed.

The occupants of the Coleman car were thrown out by the force of the collision and all were severely bruised. The front part of the automobiles were badly damaged.

The party was brot to this city in a taxicab.

LIGHTEST VOTE FOR YEARS IN PRIMARIES

Indications were Tuesday that the vote cast at the primaries would be one of the lightest in the history of the primaries.

Total lack of interest in politics and the result of the elections was everywhere apparent on the streets and in public places Tuesday. But little discussion and practically no betting on the outcome was in progress.

The general opinion seems to favor a close race between Councilman Edward Heinke and R. M. Temple for the mayoralty nomination of the Republican ticket. Both of the politicians concerning the democratic nomination favored McCoy to a slight extent. Friends of both Caton and Albertson, however, maintain that their favorites will show unsuspected strength in the outcome.

Late Tuesday afternoon reports favored the defeat of the charter and approval of the school bond issue. Supporters of the charter however continued to hope for victory.

The two mill increase in the tax levy for school purposes which is being voted upon in Roscoe, Warsaw and Waldoport will in all probability carry, according to information received from those districts.

CHAUTAUQUA TENT COMES

The big tent, under which the Col. Alther chautauqua program will be given commencing Thursday afternoon, arrived Tuesday afternoon from Washington. Pa. Superintendent Brammer and Miss Millar, junior leader, also arrived Tuesday.

Miss Millar requests a large meeting at the big tent Wednesday afternoon at 4 o'clock. Parts in the Kid circus will be discussed at this meeting. Election of officers for Junior town will take place Thursday morning 9 o'clock.

STREET MEN MAY STRIKE

It was reported Tuesday that employees of the city street department expect to go out on a strike Wednesday morning unless council grants them an increase from 37 1/2 to 45 cents per hour.

BASE STOP ON AIR MAIL ROUTE MAY BE LOCATED NEAR CITY

Fleet of Nine Pathfinding Planes Leaves New York Wednesday for Pacific Coast—Coshocton is One of 141 Stops Enroute—May Effect Big Boom Here.

If the present schedule is carried out, Coshocton will be visited by the "All American Pathfinders," a squadron of nine biplanes which leave Hazelhurst Field, N. Y. Wednesday for San Francisco. The unit includes 22 officers and 80 enlisted men.

According to the present schedule, Coshocton is mentioned as one of the base stops. Approximate date of arrival here is given as Aug. 18.

City officials are planning an elaborate welcome for the planes on their arrival, the exact time of which is yet uncertain. Word will in all probability be sent here from Pittsburgh, the last base stop before Coshocton.

As the name of the squadron indicates, its primary purpose is to gather information to be used later in the establishment of an aerial course over the United States. Upon the recommendation of this squadron an aerial route will be defined for mail service and base stops will be completely equipped to handle airplanes. Aside from this the planes will conduct a brief recruiting campaign in each city visited.

The visit looms up as important to Coshocton since there is a probability that this city with all its natural advantages may be named as a permanent base stop for the proposed course. Various aviators who were here during war times were so favorably impressed with landing facilities in the vicinity that the matter was forwarded to the war department as valuable information with the result that Coshocton has been designated as a base stop for the "Pathfinders" trip.

In case this city is recommended for the location of a permanent base stop, government purchase of an aviation field near here would be only the first step toward the development of a permanent station and field. Hangars would be erected, a radio station established and a mail system placed in operation. A detachment of soldiers to care for and operate the station would be provided, and the development of the project would mean much to this city.

That the realization of the plan would result in a boom for Coshocton is the opinion of a number of far-sighted business men. They point out that the more would result in the city being widely advertised and would accomplish untold good in a commercial way.

Intensive development of the scheme would doubtless be influential in determining the location of manufacturing interests. Growth of the town would be stimulated and directed, it is believed.

SUNDAY SCHOOL PICNIC AUGUST 21 AT WOLF'S GROVE

The Canal Lewisville M. E. Sunday school picnic will be held in Wolf's grove near Canal Lewisville, Thursday August 21. A number of good speakers will be present to address the picnicers and plenty of amusement will be furnished by the committee in charge. A special band will furnish music for the occasion.

IS ARRESTED FOR FAILURE TO PROVIDE

For failure to provide for his children in Canton Charles Phelps, Walnut st was taken to that city by a Canton officer Tuesday to answer the charge. Phelps, who is married, resides on Walnut st, with his second wife. His failure to provide for the result of a visit to Canton on which he was not permitted to see his children, police say.

PASH BUYS A BUILDING ON WEST MAIN-ST

The brick business block on west Main st between Joseph Pash's building and the Curry drug store was sold Monday by D. G. Gayle and Mrs. Merrill Smith to Joseph Pash. The property has a frontage of 40 feet and is occupied by a two story building, the first floor of which houses the Willard battery service station. The second story is flats.

The deal was made thru S. M. Snyder.

COUNCIL AUTHORIZES PURCHASE OF CARLOAD OF GOVERNMENT FOOD

Resolutions Passed for Paving South Ninth, South Tenth and Orchard-sts With Asphalt—Markers for Street Corners to be Purchased.

FOOD PRICES START SLUMP DUE TO PROBE

Vegetables and Fruits on Toboggan; Meats Slow To Drop

WASHINGTON, Aug. 12—Wholesale food dealers have begun to make big reductions in prices of vegetables, dressed meats and fruits, government reports showed today.

With the campaign to reduce the high cost of living, in full swing comparison of quotations of July 25 with August 11 showed a marked decline, which set in after the attack on unjustified prices began.

Potatoes have been cut \$3 a barrel. Slashes in the prices of dressed meats range up to five cents a pound for pork loins.

The cutting also has been extended to beef, the figures showed.

Big drops are noticeable in quotations for Boston, New York, Philadelphia and Chicago. A few price increases are shown for some grades of meat. The figures indicate the downward trend is general and that increases are exceptional.

For meats, 182 comparisons were made of quotations collected by the bureau of markets yesterday and on July 28. In 17 comparison price cuts were found. Increases totalled 50, while in 25 comparisons there was no change.

In vegetables and fruits the proportion of price cuts was greater. Cuts numbered 22 and increases only three while the no-charge comparisons were limited to one.

Some vegetables and fruits that have been depressed in price are onions, which dropped 65 cents a hundredweight in New York and fifty cents in Chicago, peaches fifty cents a carrier of six baskets in New York, 25 cents in Baltimore and 75 cents in Chicago.

Medium steer cuts showed price reductions ranging from half to 2 cents in Boston, New York Philadelphia and Chicago in comparison of bureau quotations for July 28 and yesterday.

WETS INACTIVE ON EVE OF THE FALL CAMPAIGN

Practically no steps have been taken by the Coshocton "wets" towards reorganization for a fall campaign.

While it is known that a prominent leader from state headquarters was in the city on business within the past week, local "wet" leaders maintain that practically nothing was accomplished.

Watchful waiting was the way that one "wet" man aptly termed the situation.

VICTIMS OF AUTO CRASH RECOVER

Mrs. Elizabeth Turner and her son Harry, Zanesville who have been confined to the city hospital for the past few weeks as the result of injuries sustained in an accident near here July 4th, returned to their home Monday.

Mrs. Turner and son were injured when a car in which they were riding was struck by a train.

SHAEFFER FUNERAL

Funeral services for Mrs. Samuel Shaeffer will be held at the home Tuesday afternoon at 1:30 o'clock instead of 3:45 as previously announced.

The burial will be made in South Lawn cemetery.

Altho it was conceded that the action is illegal, the city council Monday night passed a resolution authorizing the service-safety director, under the direction of council, to purchase a carload of foodstuffs from the government and authorizing the mayor and service-safety director to assist in disposing of the food to the people of Coshocton and Coshocton co.

City Solicitor Klein stated that he wished it understood that he does not consider it legal, in the event the food should not sell, but that he did not think there is any question but what it will all be sold. He said he had drawn up the resolution at the request of one of the councilmen.

A communication from the government was read by Clerk Bowen setting forth the regulations for the sale of army canned meats and vegetables to municipalities and the prices on the various articles. It specifies that the goods can be paid for in ten days from the receipt of the goods, none of which can be returned.

Councilman Heinke said the purpose is to get the city back on the move. He said they are doing it in all cities and that he is positive the carload can be disposed of in one day, if proper publicity is given in the newspaper. He said if the resolution was passed he would get the necessary data and that he understood the car would be shipped from Columbus. He said he would not sleep until it is sold. He made a motion that the resolution be passed. Dr. Davis seconded the motion.

Councilman Olinger called attention to the fact that Coshocton is a credit town and that many people who draw their pay on Saturday have it spent in advance. He said the ones who need the goods wouldn't have any money to buy them.

"I'll take \$25 worth and pay for it in advance," said J. A. Counts, who was in the audience. Councilman Brushwood stated that he had learned that the meat which is being sold by the government is the finest kind of meat. Councilman McCoy asked whether it was the intention to permit people to buy whatever amount they want. Mr. Heinke said that is the intention. All voted aye on the motion to pass the resolution.

At the opening of the council meeting, a petition for a sewer on East Orange st from Cambridge st to Sixteenth st was read. Solicitor Klein was instructed to prepare the necessary legislation. The finance committee reported the sale of bonds for Oak-av., Locav, 12th and Haya, to the Commercial bank and the council approved the action. When the finance committee reported favorably on increasing the members of the street department from 37 1/2 to 45 cents per hour, Councilman Heinke said he thought Street Commissioner Robinson's salary should also be raised, as the men would be getting more than the street commissioner. Action was deferred until the next meeting.

New rules for the fire department, which were drawn up some time ago, were adopted at a meeting except Councilman McCoy who objected to the wording of some of the rules. He maintained that the rules gave the chief power to make as men get down on their knees and crawl on the floor if he sees fit to do so. He said the rules fix the chief's hours from 7 a. m. to 5 p. m. and that he is supposed to be on duty all the time the same as the other men. Mr. McCoy said he had worked on the railroad for 14 years and that he had worked under a set of rules.

When railroad men work on the Morgan Run," asked Heinke. McCoy replied that he had worked on the Morgan Run and on the C. A. & C. Dr. Davis moved the rules be adopted. Heinke seconded the motion and all voted aye.

The street committee reported favorably on paving with asphalt south Tenth-st from Walnut to Vine-st, south Ninth-st from Orange to Pine-st and Orchard-st from Tenth-st to Twelfth-st.

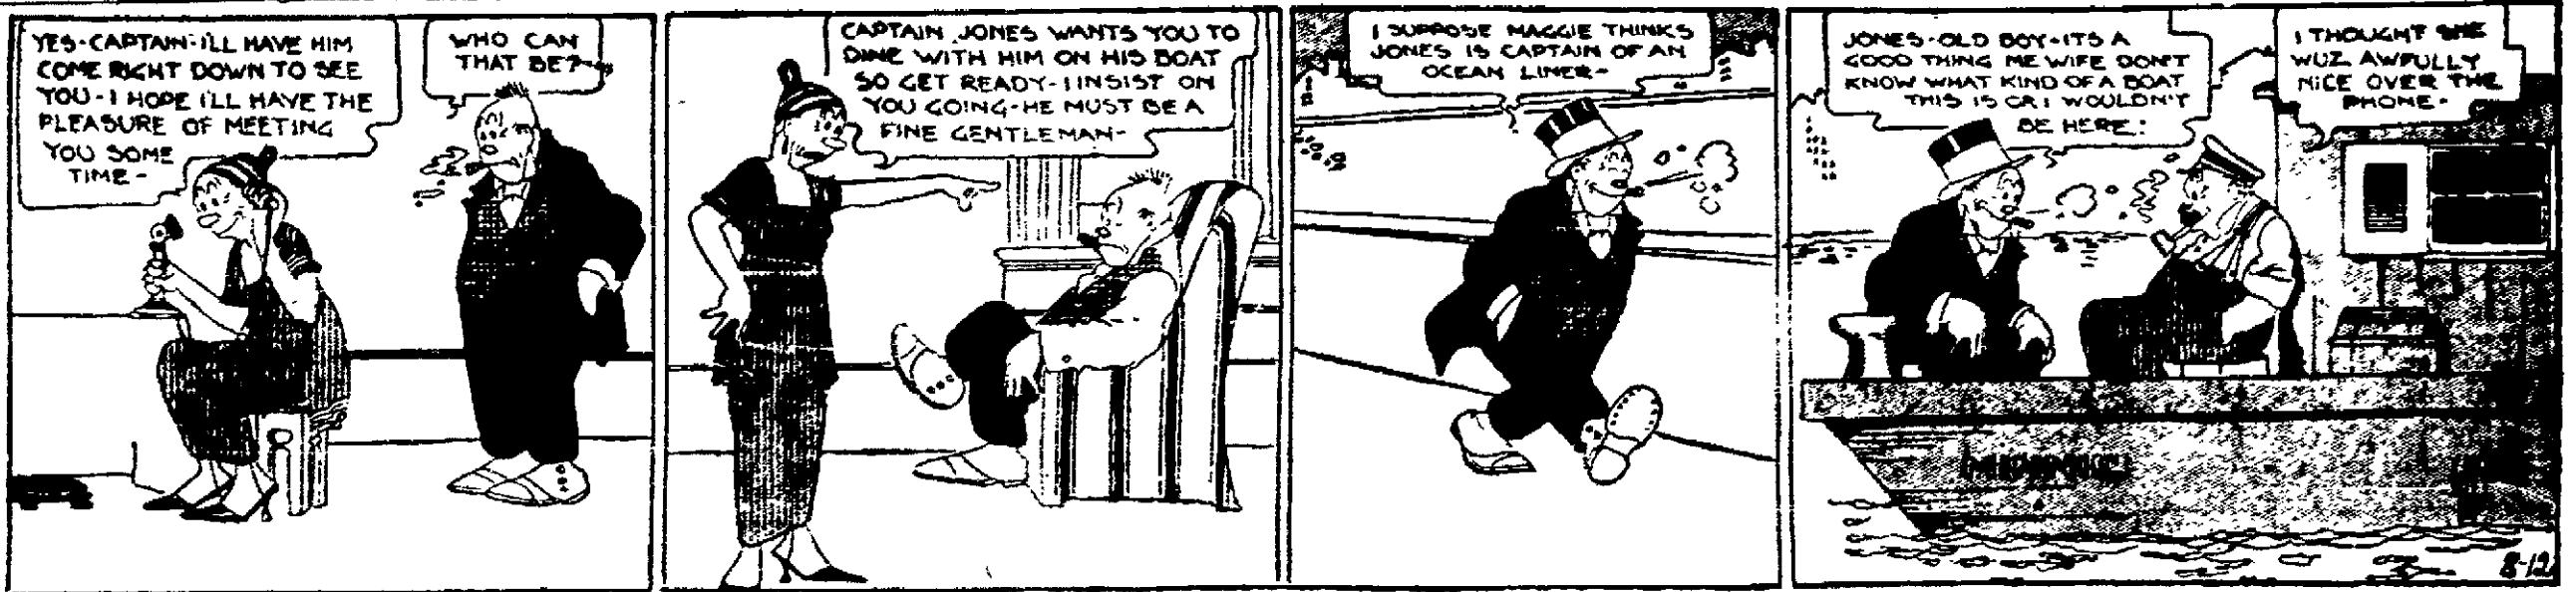

With reference to the installing of street markers on ten prominent street corners, Councilman Heinke said he had been under the impression that the automobile club would bear part of the expense, which will amount to about \$500. R. F. Timmons stated that originally the club had been willing to do so.

WORLD SHIPPING, 1919.

Colossal as was the loss which the world suffered because of the war, there were here and there some figures on the other side of the balance sheet. In America, for example, we achieved undreamed of results in the speeding-up of industry, one authority having estimated the average increase in factory output during the last months of war as 6 per cent.

In the field of shipping, also, there are two sides to the picture. While the German submarines were playing havoc with the world's merchant tonnage, shipyards everywhere were stimulated to new building at amazing speed. The first unencumbered Lloyd's report since 1914 shows that in spite of total losses of 14,000,000 tons, the tonnage in 1919 was greater by 2,400,000 tons than that of 1914.

This gain is entirely due to the United States, without whose efforts there would have been a net loss of 7,400,000 tons. The United States in 1914 had a little over 2,000,000 tons of ocean-going vessels; she built about 7,000,000 more, and thereby offset the loss of all other countries over their new building, and piled up the added margin of 2,000,000.

These figures of Lloyd's do not, however, give the whole American story. The United States Shipping Board alone has more than 3,000,000 deadweight tonnage afloat (excluding the recent sales), and has under contract and building 9,000,000 tons more. This vast government-owned fleet, added to privately owned vessels will give the United States next spring a total of 16,700,000 tons.

Great Britain, mistress of the seas for generations, now has only 16,345,000 tons, her fleet having shrunk to this from 18,892,000 in 1914, in spite of heroic efforts at shipbuilding which turned the Clyde into a Jules Verne nightmare of heroic labor and gigantic machinery. However, other British dominions add 1,563,000, which holds the empire's place secure with over 18,000,000 tons.

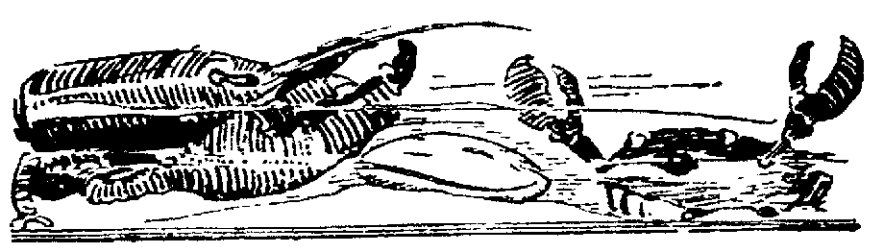

How narrow a margin this is, you realize when you recall that in 1914 the British flag was at the masthead of every third ship afloat, while the United States, by combining the Great Lakes shipping and the oceanic, could only muster one-tenth of the world's total. The figures showing what Great Britain lost of the high seas are only another silent reminder that the right little, right little isle, equally with the Empire dominions, paid a price for this war from which she will not recover in a generation.

THIS GOOD WORLD
This world is good in which we dwell. I like the blessed thing mighty well, and I have lived here long as dawn my long life path I see. And eight joys for every one here rights for every wrong. Oh, now and then there comes a day when everything seems grim and gray and badly out of plumb; but calm reflection brings me bliss for every rotten day like this, six happy days will come. The optimist is one who knows that his outnumber human woes, when hal- sues are struck and as with sun- shine in his heart, he labors in the busy mart and rails the weary back. He does not worry over the grief that comes to him as a relief when hap- ness grows stale; no man could stand unchanging bliss, a slice of pie so soon would miss, if there were none for sale. The pessimist is one who'll mark a record of each day that dark its minutes and its hours, and he'll forget the cheerful days, when all the landscape is ablaze with sunshine and with flowers. He thinks that there are nineteen woes for every joy a mortal knows, in which he sadly wrong; I know the good outweighs the ill, and knowledge should my counsels fill, for I have lived here long.

More Truth Than Poetry
By James J. Montague

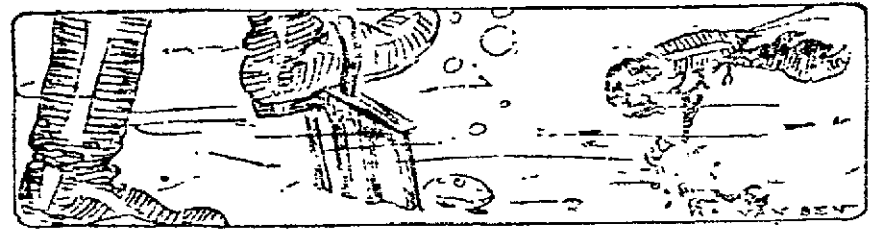

An Essay on Clams
A little neck clam, who was far from loquacious
Used to ride on the tide in a bay,
And his friends all believed him extremely sagacious
Because he had little to say.
"He doesn't waste hours in argument futile,"
"He knows that loose talk is in vain and inutile,
He's a long-headed son-of-a-gun."

This habit of cutting out all conversation
Wherever he happened to be,
Soon gained for the clam widespread reputation
As the wisest old fish in the sea.
Crustaceans and bivalves looked on him with wonder,
And pilgrims repaired to his home
To poke in the sand he lay slumbering under
And gaze at his marvelous dome.

But when an old man with a spade and a "dredger"
Came down to the beach at low tide,
The lobsters and crabs, with affrighted demeanor,
Stepped nimbly and deftly aside.
While the taciturn clam they had fancied so knowing
For the reason his words were but few,
The following evening was busily throwing
A fit as he boiled in a stew!

You've often met clams in your daily relations
Untalkative, reticent guys,
Who somehow achieve rather big reputations
Because they sit round and look wise.
Their silence was golden—they profited by it,
But this fact, notwithstanding, remains:
The actual reason that kept them so quiet
Was their lack of all semblance of brains!

It Makes a Difference
Now that people are able to know just what jazz music sounds like there appears to be less demand for it.

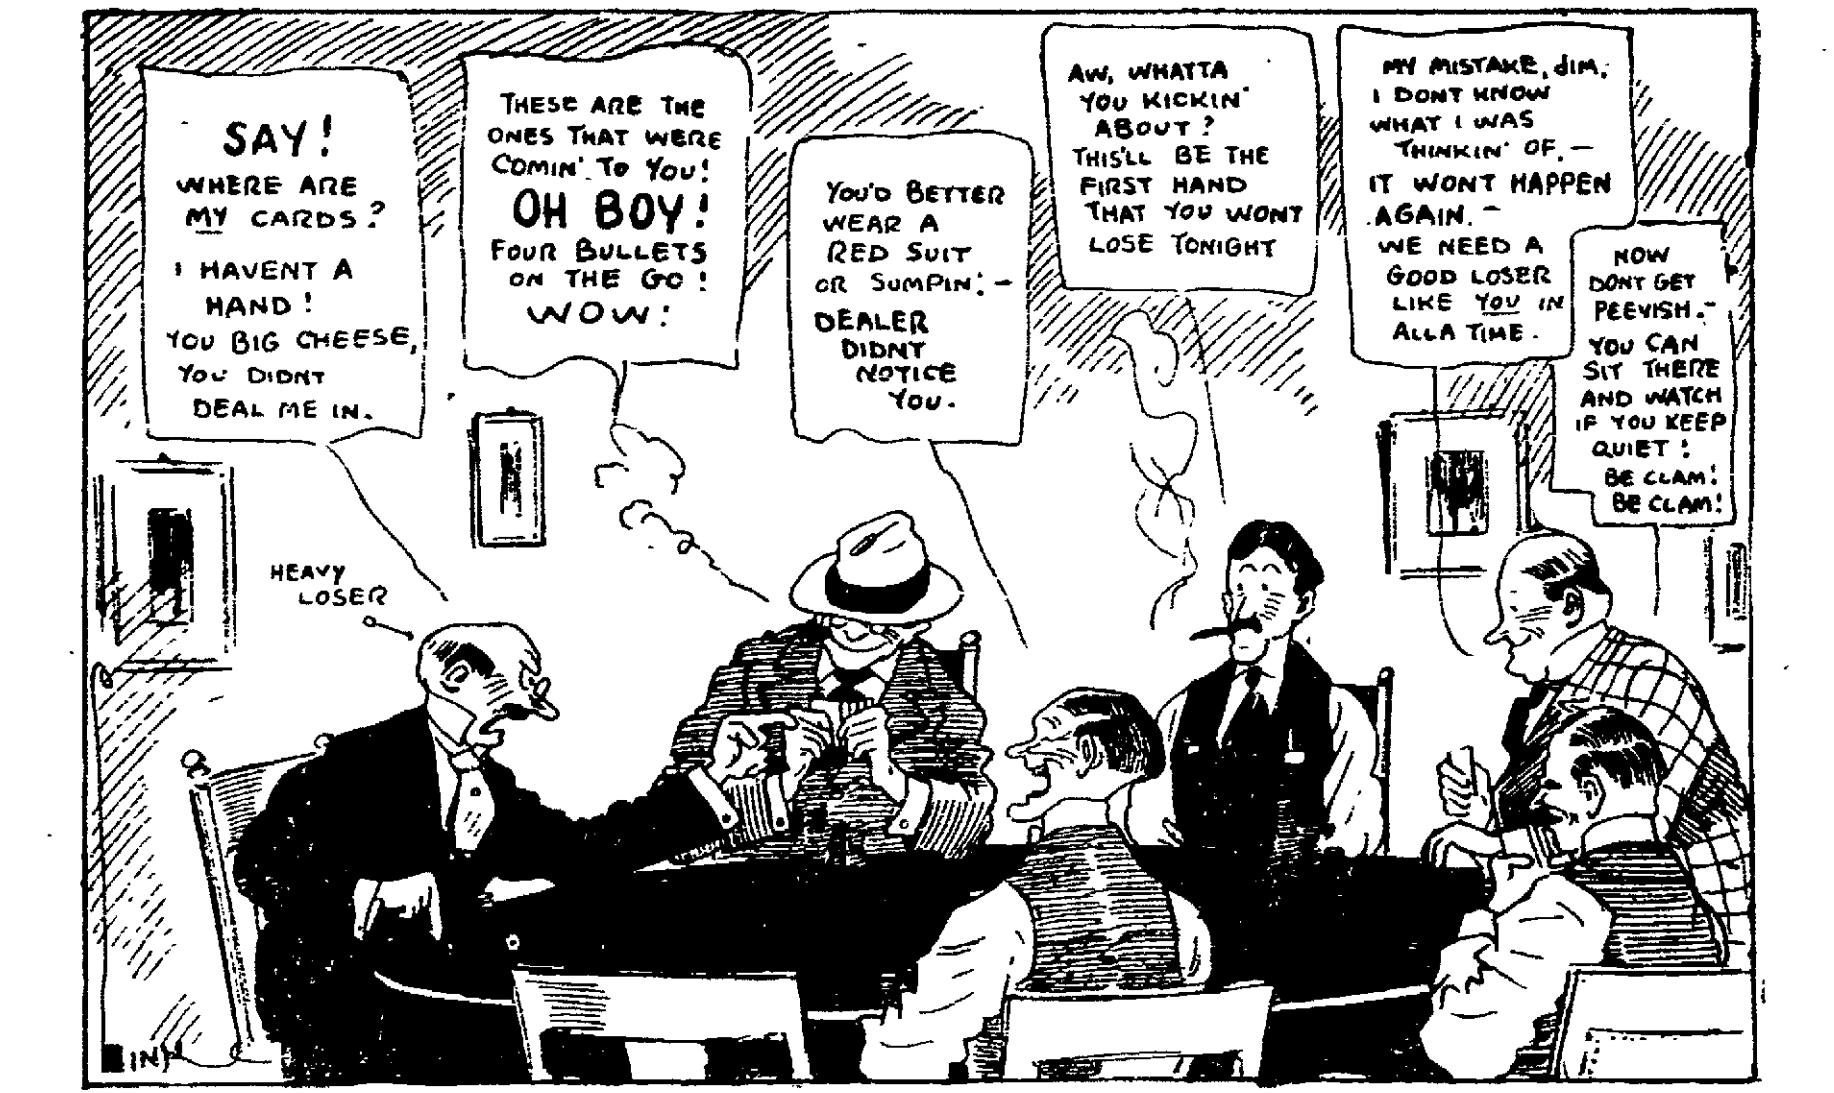

Unaffected
There are two states that haven't bothered much since July 1. Kansas has been dry for so many years that she doesn't notice the change, and for another reason neither does Maine.

gressman, believes in advertising. Nations," his advertisement con- tains far more an attack than defense. He gives his opinion of the League for the Preservation of American Independence as fol- lows:

IMPORTANT
Those who wish the League of Nations ratified by the Sen- ate are requested to write me their approval which will be sent with others to members of the Senate. These who are making this fight for human happiness and a stable world, need your encouragement. In this advertisement Mr. Stephens says:
I have paid for this space for my own personal funds and I debate it to the con- tinence in a defense of the League of Nations. The League is a treaty, and it is a treaty that will destroy their business. They are not interested in human- ity. They profit from the sowing of hate and war in the world. The Krapps drove Ger- many onto the rocks. German propaganda, carried on all over the world before the war, was designed to make us hate England. Now the war is over, the same old gang is at work again and partisans who think more of their party than they love their country are working shoulder to shoulder with them, utterly misrepresenting the principles, aims and pur- poses of the League of Na- tions for no other purpose than to discredit the Presi- dent of the United States whom the world owes a monu- mental debt of gratitude.

"THAT LITTLE GAME" Left Out

New York Day-By-Day
By O. O. McIntyre

NEW YORK, Aug. 12.—It was a star gemmed evening, freshened by the softest of zephyrs Lower Fifth Avenue had been touched by the magic hush that precedes the noise and clatter of the Lafayette and Brevort turning cafe guests out for the night.

But this night the crowds did not leave Big Bill Neely in his open faced hack slumped forward in his seat. That was indeed unusual. Twenty two years ago Big Bill drove up in front of the Brevort one morning in a coach drawn by a new horse and entered the public bawling business.

Almost every patron of the cafes around lower Fifth Avenue knows Big Bill. He always sat up in front of the seat without a back to it. Despite the temptation to slump forward as he drove thru the years, Big Bill always sat erect. His clients were his friends and he tucked all under the laprobe with the same solicitude.

And so it was on this star gemmed evening that Big Bill and Old Mollie took their last ride up the avenue. He is going out of business and Old Mollie—24 years old to be exact—is going out of business. The last week Bill took in \$7.40. Not enough to feed Mollie and him. Bill has hung on since the first of July just hoping.

Then he got a little homesome and just a little afraid. Kind of hopeless and helpless. Bill's plight is some- what akin to a situation 30 blocks up town. There half a thousand cabaret show girls are asking: Where do we go from here?

It is violating no confidence to say that many will go home, more will join burlesque and musical comedy road shows and the remainder will go back to counters, the man curing tables and the clerkships. The "New York Show girl, the stonious gazelle with the luminous orbs and the in- corrigible toes, isn't a New York girl at all. Not one in 10 of these incon- sistent damsels call New York home.

There was a time on the Bowery when a man who wasn't so particular about his brand of whiskey, could guzzle his senses away by paying a dime and breathing one breathful of booze thru a rubber tube. Some places charged a nickel. Now a restaurant has opened over on Third-av on the East Side where a man can eat his hunger away by paying twenty five cents. The place is run by Urban J. Ledoux, former American consul at Prague. It is run on the Bahal prin- ciple. The Bahals are a sect whose basic principle is the Golden Rule. If they were poor they would like to be given a filling meal for twenty five cents. Hence they give it to others.

Lee Shubert and Marcus Loew stood chatting at Broadway and Forty Second street the other noon and Tommy Gray, the Broadway wit, went swinging by singing: "Hi Lee Hi Low Hi Lee Hi Low!"

Raymond Hitchcock made many friends on his recent stay in London but one had a poor sense of humor in writing to him and addressing the letter as follows: "Raymond Hitch- cock, New York. If received before July 1 try any bar. If received after July 1 try any cellar."

The same day that Lady Diana Cooper of London fell down the other week my washerwoman who lives in the Bronx failed to show up. The connection is remote but it interests me. Lady Diana had only a slight fall and broke into all the first pages with her latest pictures. My washer- woman fell down three flights carry- ing a phonograph. No. 1. She appear- ed in any paper. For those who want added details her name is Mrs. Mar- garet O'Hoolahan and she comes origi- nally from Dublin.

Remarkable Economy!

MAZOLA is used over and over again without transmitting flavors or odors from one food to another. It is not absorbed into foods.

And remember—Mazola is equal to butter for cooking, better and more wholesome than lard and compounds and you use $\frac{1}{4}$ to $\frac{1}{2}$ less Mazola for shortening, as in pie crusts, etc.

Quit Laxatives, Purges; Try NR

NR Tonight—Tomorrow Feel Night

It is a mistake to continually dose yourself with so-called laxative pills, calomel, oil, purges and cathartics and force bowel action. It weakens the bowels and liver and makes constant dosing necessary.
Why don't you begin right today to overcome your constipation and get your system in such shape that daily purging will be unnecessary? You can do so if you get a 25c box of Nature's Remedy (NR Tablets) and take one each night for a week or so.
NR Tablets do much more than merely cause pleasant easy bowel action. This medicine acts upon the digestive as well as eliminative organs—promotes good digestion, causes the body to get the nourishment from all the food you eat, gives you a good, hearty appetite, strengthens the liver, overcomes biliousness, regulates kidney and bowel action and gives the whole body a thorough cleaning out. This accomplished you will not have to take medicine every day. An occasional NR tablet will keep your body in condition and you can always feel normal.
Try Nature's Remedy (NR Tablets) and prove this. It is the best bowel medicine that you can use and costs only 25c per box, containing enough to last twenty-five days. Nature's Remedy (NR Tablets) is sold, guaranteed and recommended by your druggist.

PESKY BED BUGS

A MILLION BEDBUGS. Just think, a 2c package of the new golden chemical P.D.Q. (Pesty Devils' Quicker) is enough to make a quart and enough to kill a million bedbugs, no matter how large they may be or where they came from, their age, color or sex, and at the same time a coating on their eyes and prevents hatching.
CUT THIS OUT. This new chemical can be had at any first-class drug store. A 2c package makes a quart of P.D.Q., and will go farther than a barrel of old-fashioned bug killer. Don't let anybody impose upon your intelligence by offering you something else. Insist on what you ask for, then you'll have what doctors prescribe.
KILLS FLEAS ON DOGS. It's fun to see the fleas drop off your pet dog.
KILLS CHICKEN LICE. No use for your chickens to have lice. A 2c package mixed makes a gallon of chicken lice killer. Your druggist has it, or can get it for you.

JOHNSTON AND
THREE CLUBS
DISCUSS MAYS

NEW YORK, Aug. 12.—Charles A. Comiskey, President of the Chicago American League Club, and Harry Frazee, President of the Boston Club, today were expected to be the only club owners to respond to the call of Colonel Jacob Ruppert, President of the New York Club, for a meeting to discuss the status of Carl Mays, pitcher recently purchased by New York.

Mays was suspended by Pres. Ben Johnson, immediately after the purchase, but has worked in two games, due to an injunction procedure secured by Ruppert to prevent Johnson from interfering with the hurler.

Johnson was here, but said he would not be at the meeting. He said he came to attempt to defeat the injunction asked by the New York club when it comes up tomorrow for argument.

NELLIE WINS

AGAINST CANTONIANS
HERE NEXT SATURDAY

Mac Donley, of Pittsburgh, will be here Saturday afternoon to pitch against the Canton No-nakers for C. M. Mays. The Cantonians will be here for two games, Saturday and Sunday. Lefty Price will pitch for Canton Saturday.

BEST SERVICE

Given by the Holmes Service Station

The Holmes Service Station, 618 Walnut st., is offering to motorists a service that is complete in every detail. A full line of tires, tubes and accessories are kept in stock and auto repairing is given prompt and careful attention. A large room is placed at the service of motorists for storage purposes and cars stored in it are looked after and kept in good condition. The proprietors, B. O. and D. H. Holmes, are both expert motorists and electricians and have the agency for the well known Philadelphia Diamond Grid Battery one of the strongest and most dependable batteries on the market. The Philadelphia Grid Battery is in service all over the country and motorists who are using it say it has no superior. The Holmes Service Station gives a free testing, filling and inspection service and also recharges, repairs and replaces all makes of batteries. Car owners will find it to their interest to patronize this station as it not only does good work but its charge is very reasonable. R. D. and D. H. Holmes extend a cordial invitation to motorists to call and inspect their facilities for serving them in a prompt and satisfactory way. They believe in giving good values and their customers may rely upon getting their money's worth.

Stomach is Quick to Upset When
School Children Are Idle

VACATION days are days of over-eating and under-exercising for most boys and girls. They roll around nibbling at light food, unconcerned whether the fruit is green or ripe.

The stomach is quick to erupt, in the form of indigestion, flatulence, "summer colds," constipation and diarrhea. The basis of such trouble is an upset stomach, and nothing will give relief and quicker relief than the well-known Dr. Caldwell's Syrup Pepsin. It is just a combination of simple laxative herbs with pepsin, a formula evolved some 30 years ago by Dr. Caldwell himself. Syrup Pepsin is now used by millions of people and is today the largest-selling liquid laxative in the world.

It is the mildest and gentlest of laxatives. It regulates the stomach and bowels so well that they can soon work normally again without the aid of medicine. And unlike the harsher cathartics, Syrup Pepsin does not grip or cause discomfort, even to a tiny baby.

A bottle of Dr. Caldwell's Syrup Pepsin can be bought at any drug store for 50c and \$1, the latter the family size. A free trial bottle can be had by sending your address to Dr. W. B. Caldwell, 400 Washington St., Monticello, Ill.

SPORT NOTES

COLUMBUS, O.—Dick O'Brien, Cincinnati heavyweight, won the referee's decision in a 15 round bout at Neil park Monday night with Patrol man Jack Geyer, Columbus. O'Brien won on points by a narrow margin. Geyer took a terrific lacing in several rounds but the Queen City man's blows lacked punch.

PHILADELPHIA—Benny Leonard easily outpointed Irish Patsy Cline, in a six round bout here last night. The champion was never in danger. In other bouts Johnny Dundee drew with Joe Welling, Charley White held Harry Pearce even and Joe Benjamin, California, defeated A. Thompson.

NEW YORK—A team tennis match between the quartet of Australians now playing in this country and a team of Americans to be picked later, will be played immediately after the

national singles, which starts at the West Side Tennis club, Forest Hills, August 25. The American team, it has been indicated, probably will consist of Robert Lindley Murray, the present national champion, William M. Johnston, and Richard Norris Williams II, both former champions and Wm. T. Tilden, former clay court champion.

LEMON JUICE TAKES OFF TAN

Girls! Make bleaching lotion if skin is sunburned, tanned or freckled.

Squeeze the juice of two lemons into a bottle containing three ounces of Orchard White, shake well, and you have a quarter pint of the best freckle, sunburn and tan lotion, and complexion beautifier, at very, very small cost. Your grocer has the lemons and any drug store or toilet counter will supply three ounces of Orchard White for a few cents. Massage this sweetly fragrant lotion into the face, neck, arms and hands each day and see how freckles, sunburn, windburn and tan disappear and how clear, soft and white the skin becomes. Yes! It is harmless.

CLEAN UP POISON SOAKED KIDNEYS ADVISES DR. CAREY

Thousands Die Every Year Because They Allow Poisonous Deposits to Accumulate in Kidneys.

Don't flush your kidneys with harsh makeshifts says Dr. Carey, they are too frail and delicately constructed to treat them roughly. For 40 years I have been prescribing Marshroot for kidneys and bladder sickness and now that I have retired from active practice I have made arrangements with leading druggists to dispense this wonderful prescription at a moderate price.

Beware of kidney disease thousands die of it every year who ought to be enjoying the blessings of life and health.

If you have specks floating before the eyes, puffs under eyes, clammy feet or moist palms, backache or sideache you ought to get a bottle of Dr. Carey's Marshroot right away.

It has conquered thousands of cases of kidney and bladder diseases and is the medicine you can always depend upon.

IMPORTANT—Dr. Daniel G. Carey has been a practicing physician for many years and his great prescription, "Marshroot," has cured thousands of sufferers from kidney and bladder troubles. It is not a patent medicine and is only sold thru drug stores in order to accommodate his patients. Wimmer-Arnold Drug Co. can supply you.

MANY EXPECTS U. S. MUSICIANS

LIN, Aug. 11.—(By Mail.)—A great influx of American musicians as soon as enough time has passed to allow whatever rancor may exist in that country against the United States government places no restriction upon such emigration.

believe prevails here that it will be a short time before art relations between the two countries will be resumed with greater energy of purpose than before the war.

"I am sure it will take time to bring this about," declared August Spanuth, well known musical critic today, "but I believe that the American musical public will come to a realization that art is above personal and nationalistic hatred."

"The Germans produced many of Shakespeare's tragedies while the war was on, just as they played Verdi's operas and Sousa's marches. I believe the American people have too much common sense to neglect the study of German music. It would mean cutting into their own flesh."

"Of course they might, for some time, study only French and Italian music, but they will have to come to Germany sooner or later. They will find it almost impossible to be without German music, and will soon want to hear Wagnerian operas again."

"Peace has been signed; let us have peace, then—at least so far as music is concerned."

RAILROADING OF TOWNLEY IS PICTURED GRAPHICALLY

Fight On Farmers In Northwest Gets Into Minnesota Courts

AMAZING STORY IS TOLD BY MCKAIG

Townley Taken To County For Trial That Mobbed Jim Manahan

JURY IS HARD PICKED

Court Unblushingly Rules Out Evidence Favorable To Defendant

By RAY MCKAIG
Field Secretary of
The Nonpartisan League

"A. C. Townley, president of the Nonpartisan League, was convicted in Jackson-co., Minnesota, on the charge of conspiring to defeat the draft. The conviction is a misdemeanor." (Newspaper item.)

It is a trick ancient as Jewish history to hint of a frameup when the courts are against one. As I write this article, and realize the hopelessness of getting to the American people the story of the conviction of Townley, I ask myself, What is the use? Yet I saw the trial, and I shall set down the real facts.

The place was well chosen for the railroading. A courthouse in a southern Minnesota county. The county and state politicians versus President Townley of the Nonpartisan League. Three balls should have hung over the courthouse door—one representing the hand-picked jury, one the county attorney, and the third ball the presiding judge. The county attorney was the implacable enemy of the League and the presiding judge was the political appointee of Governor Burmquist, the mob executive of the North Star State. At that courtroom justice was pawned and judicial protection exchanged for political chicanery. There campaign debts were paid and injustice meted out. Already scores of Twin City lawyers have condemned the miscarriage of justice and have freely prophesied that the supreme court will reverse the verdict of conviction.

Having been a juror, I repeatedly told Congressman Baer and A. C. Townley that the jury was hand-picked to railroad the League. When over the prosecution scored a hit on the League the jury laughed and chuckled. When the League attorneys made a happy sally the jurors snored into stolidity. Most of the county people had been poisoned against the League. It was one of the few anti-League counties. The county house officer was an anti-League machine and it chose the jury.

The indictment was based on a pamphlet circulated in great numbers with the approval of the postoffice authorities. The federal department of justice had never questioned its loyalty. It contained the war aims of the League and was paralleled by the president's almost forgotten peace points. This pamphlet was drawn up by 8000 delegates representing the northwest farmer and labor organizations. These resolutions had been passed upon by the supreme court of Minnesota and found loyal. Upon this flimsy foundation Townley was arrested and convicted.

The indictment held that Townley had conspired to defeat the draft by circulating this pamphlet. Such is considered a misdemeanor in Minnesota. The laws of Minnesota will not permit a change of venue for a misdemeanor. But a biased judge and a county attorney who had forbidden League meetings and who had urged farmers not to join the League were not promising conditions of a fair trial. The county of Jackson had mobbed League organizers and had terrorized the League farmers. That county had mobbed ex-Congressman James Manahan, who was a League attorney. There was no more bitter place in all the state than Jackson-co.

The plot was well laid. A self-confessed thief discharged from the League was the state's star witness. He left jail in Wisconsin to testify at the trial. He was under indictment by the federal government. Upon this man's testimony that Townley was disloyal did the state build its case. To show his utter unreliability the defense tried to show by cashed checks that he had received much money from the Nonpartisan League's political enemies, and that he was a paid retainer of the political gang. But the judge ruled out such evidence.

A motion was made to dismiss the suit against Townley on the ground that the supreme court had already ruled that the pamphlet was loyal. The judge immediately answered that, if he personally believed such a pamphlet was true, he never would have allowed his boy to enlist. In vain the attorneys for the defense argued that, no matter about the judge and his son, the supreme court had already ruled that the pamphlet was not disloyal, that Townley had never been in Jackson-co., and that the federal government approved of the pamphlet, permitting its circulation in the interstate mail. But, no; Townley must stand trial.

So, on a matter that exclusively belonged to the federal courts, Townley stood trial on the same footing as a chicken thief and with his attorneys he fought against the mass of prejudice, perjured testimony. The League's attorneys had for their leader Mr. Hoke, a skilled cross-examination corporation lawyer of unimpeachable character and of many years' experience. As the judge repeatedly ruled against the defense on many fundamental points of the law, the humorous incident of the trial was the development of this corporation lawyer from a quiet dignified attorney to a roaring protestant against judicial wrongs to his client. Threats of arrest could not drown his protests. "If this injustice continues much longer," he called out, "emotions broke out when at the close of the trial Townley asked for the privilege of addressing the jurors in his own behalf. For three hours the county attorney had addressed the jury, falsely interpreting Townley's speeches. The defendant wanted to tell the jury his own story. Denied this right, he burst out, "Great God, judge the future life of hundreds of thousands of farmers is involved in this trial." The judge coolly answered that he had the right of appeal to the supreme court and went on in his task of instructing the jury.

For 10 days the prosecution brot in testimony as to the effect of Townley's speeches on the arousing of disloyalty among the hearers. In rebuttal, the town of Jackson was soon full of returned soldiers and the fathers of sons in France, state senators and officials, and war workers, who wanted to testify how Townley's speeches had inspired them to help win the war, to tell how he had urged enlistments and volunteer war activities. A letter from President Wilson thanking Townley for his patriotic co-operation and letters from Creel and other war leaders were also presented. But every thing was barred. Every shred of evidence as to the League's loyalty from President Wilson to the humble tribute of a war widow was forbidden by the judge. Joseph Joyce of the department of justice was there to tell of the loyalty of the same speeches that two witnesses called disloyal. But Joyce might as well have stayed at home. If a witness on the stand would damn Townley, he had full license to go as far as he could. If the witness would praise Townley the judge ruled the Prussian dictum, "Verboten." For 10 days the court was flooded with the same of disloyal statements about Townley. But all witnesses as to what Townley did for the winning of the war were forbidden to testify.

I came as a witness from Idaho. Townley had given a speech months before the war demanding that the right way to fight a war was to conscript both men and money. At that meeting he said:

"Sixty years ago 50 per cent of the people owned 50 per cent of the national wealth. Today two per cent of the people own over 55 per cent of the wealth. Thousands of new millionaires have recently been made thru war profits. And the people will have to pay for it. If we are not careful these big fellows will run off with America while they are waving the flag and singing 'America.' We had better get lined up now to battle with them before they steal us blind."

Then, too, Townley had nothing to do with that pamphlet. I was one of a group of delegates that drew up those resolutions that were the cause of his indictment. We delegates represented many farmer and labor organizations of the northwest. If Townley were guilty, then we all were guilty. But up to date no one has dared to call the state granges and farmer union and labor organizations disloyal.

To my utter amazement the judge would not let me tell about Townley's speech on the conscription of wealth. My wrath boiled over when the judge would not even let me tell the jury that we heads of various labor and farmer organizations, and not Townley, had drawn up those resolutions. Townley spoke at this great convention where these resolutions were

passed unanimously. Witnesses were allowed to say that Townley's speech was disloyal. But when we farmers whose patriotism had never been questioned wanted to show that these accusers lied we were gagged and driven off the stand.

Day after day the farce kept up. Judge Dean was paying his political debts and the county attorney was getting publicity. It was frequently whispered around the courtroom that the judge was to run for congress. It became so plain that there was some kind of a working agreement between the judge and the prosecuting attorney to railroad Townley that Congressman Baer left Jackson in anger and disgust. He said:

"Ten days more of listening to this frameup would make any man an anarchist." He declared that he was going back to Washington to demand a federal investigation of the mock trial.

Summed up, it presents itself as follows: Townley was convicted of circulating a pamphlet that the federal government had endorsed. Townley was convicted by a political hostile machine in a county where he had never been. Townley was convicted by the testimony that, while his speeches were all right, his gestures and innuendo were disloyal. Scores of witnesses whose characters were above reproach were barred when they started to tell that Townley had inspired them to greater war work or to enlist as soldiers. Townley was convicted of circulating a pamphlet that contained Congressman Baer's statement and resolutions of 8000 farmers and labor men. Townley was convicted on the testimony of men that were known as plotting against the League, one of them a criminal. Not one word of testimony could be introduced to show that the entire trial was a frameup from the political gang of the state to the county attorney. And last, Townley was forbidden to speak in his own defense.

Anyone Can Make a Pint For Trifling Sum and Used In Time May Prevent Annual Attack

"No matter how severe your yearly attack be, No matter how distressing or humiliating— Its intensity can be reduced to a harmless, mildness."

says a Kentucky druggist who believes from what he has seen that this simple home made remedy is a most important discovery.

He has seen the most severe and apparently inoperable cases reduced to what might be called a mild cold in twenty-four hours.

In many cases where the patient started treatment a week or ten days before the expected attack the unwelcome yearly visitor failed to appear with anything like its usual intensity.

People who want to try this new treatment can make a pint in a few minutes.

Put one ounce of Mentholized Arcline into a pint bottle then fill the bottle with water that has been boiled (gargle daily as directed and spray the nostrils twice daily.

That's all there is to the treatment which so many sufferers have found to be a true friend.

Mentholized Arcline in one ounce vials is dispensed by a the better pharmacies.

COUNCIL

(Continued From Page One)

ing but at that time the idea had been to install merely cheap markers, costing about \$13 each, but since permanent traffic markers are to be installed for the benefit of the city, the council should bear the entire expense. Councilman Brushwood moved that the plan be adopted and all voted yes. As no money is available, Chas. Aland stated that he thought the city company would be willing to wait until after the first of the year for the pay for the iron posts, at \$25 each.

Rev. McVey, pastor of the M. P. church, called attention to the gravel, sand and which is being washed down from the new driveway in front of the Catholic church property and said that the water has run into his cellar and garage. He said he thought some provision should be made for taking care of the water before Burrav is paved. Engineer Fisher said he thought the new paving would help the drainage, although the curbs might not stop all the water in case of very hard rain. Rev. McVey was told that he would have to move his garage in case it is in the way of the construction of the new paving.

City Solicitor Klein was instructed to draw up a resolution to require W. A. Himebaugh and other property owners on Orange-st to construct a sidewalk in front of their property.

Resolutions declaring it necessary to pave south Tenth-st from Walnut to Vine-st, south Ninth-st from Orange to Pine-st and Orchard-st from Tenth to Twelfth-st with asphaltum were all passed under suspension of the rules. A resolution was passed authorizing the city auditor to advertise for bids and enter into a contract with one of the local banks for the depository of the city funds for the next two years, the present contract expiring soon. A resolution to issue certificates of indebtedness, amounting to about \$200, to pay J. A. Hanlon for engineering services was given its first reading and held over until the next meeting.

J. A. Counts asked that something be done toward cleaning out the south end of the ditch along the Wheeling & Lake Erie railroad below Dennan-av. He said the water had almost destroyed his ginseng patch and that he ought to get \$12 a pound for it but wouldn't get half that. It was stated that Contractor Hall was willing to furnish his steamshovel at \$15 per day. The street committee is to take further steps toward widening the lower end of the ditch.

Dr. Davis said he thought the ordinance prohibiting automobiles being operated with the but outs open should be enforced. Councilman Norris and R. F. Timmons agreed with him. The matter was referred to the ordinance committee to determine just what the present ordinance provides and if necessary to prepare a new ordinance to abate the nuisance.

The matter came up at the council meeting Monday night when the petition of the members of the street cleaning force came up. Mr. Norris, chairman of the finance committee, reported that the committee favored granting the increase from 27 1/2 to 45 cents per hour. President Magruder said it did not seem to him to be the opportune time to discuss salaries on the eve of the primary election. He said he did not consider it fair and that he could see no reason why all salary questions could not be held off two weeks. He gave assurance that every one would be given a square deal in two weeks if he had to stay at the meeting until breakfast time. He said that if the council had no objections, he would consider all salary discussions off for the night. Councilman Tish objected to putting it off. He said there were certain conditions prevailing among the firemen and street men and that the council would not have the same organization to deal with in two weeks that it had now and he said he did not think it would interfere with the candidates for council or any other office.

Councilman Heinke suggested that President Magruder's request be followed, and the matter was temporarily tabled. Later in the session, Chief Tracewell addressed council, stating that the finance committee had given assurance Sunday night that the matter would be taken care of Monday night.

President Magruder said he thought the firemen should be ashamed, as this council has granted them two raises already. Chief Tracewell replied that conditions have changed and that the men had to secure more money or seek other employment where they can get it. President Magruder called attention to the fact that several of the councilmen are candidates, two of them for the office of mayor and that he did not think it fair that they should be "smoked out" on the eve of election and placed on record as to their notion of future government. He said he did not think it as unreasonable for council to delay the matter two weeks as it is for the firemen to demand the third increase from the same council.

Councilman Heinke said he thought Chief Tracewell and the men understand that they will receive an increase. Councilman Tish said he thought it no more fair to hold off the firemen's increase than it would be to hold off action toward securing of a carload of foodstuff from the government.

The matter continued to be tabled, however, and just before council adjourned notice was given by the firemen that they would walk out Tuesday morning at 7 o'clock. Councilman Davis said he was in favor of giving the firemen a raise in salary and was ready to vote for it but that if the firemen were determined to walk out he believed in letting them walk out. Council then adjourned.
